3 YEAR MANUFACTURER'S WARRANTY

Colin's Review

"This is definitely a bang for your buck, having a rechargeable battery that can last up to 6 months on a single charge, that is really AMAZING. Whats more is that it has 3 modes with the smart Temperament Learning Mode that makes life easier for you."

3 DIFFERENT CORRECTION MODES

➤ TEMPERAMENT LEARNING MODE – SMART CORRECTION

It will automatically determine the correction depending on the dog's bark, it will increase if your dog keeps barking and decrease until it stops. It will count the number of corrections made until your dog stops barking.

➤ PROGRESSIVE CORRECTION MODE – AUTOMATIC CORRECTION

In this mode the Collar will gradually increase if your dog keeps barking and will automatically go back to the lowest level if your dog stops barking for 30 seconds.

➤ USER-SELECTED MODE – MANUALLY SET CORRECTION LEVEL

This is a manually set static fixed setting. The user will be able to set the level of stimulation suitable for your dog. It is recommended to start at the lowest level and increasing by 1 until you find the level suitable for your dog.

PERFECT BARK TECHNOLOGY – PATENTED FEATURE

The Perfect Bark Technology gives better and more accurate simultaneous detection of both sound and vibration coming from your dog. The accuracy of your bark detection should be a must when choosing your bark collar so your training is consistent and stays effective.

WATERPROOF CASE

Reducing the risk of damage, the SportDOG Rechargeable SBC-R-E Bark Collar is completely waterproof and submersible to prevent water damage.

FULLY RECHARGEABLE – UP TO 6 MONTHS OF USE TIME

Only the best rechargeable Lithium-Ion batteries are used on the SBC-R-E. On a single charge, it can last for up to 6 months depending on the frequency of use, what level and which mode.

DIGITAL DISPLAY FOR BATTERY STATUS & MODE SELECTION

Check if it's time for a charge just by looking at the display and determine whether your current setting is effective. The display will also show the level you selected when you are User-Selected Mode.
