

## BigLeash FireFly Remote Trainer With Illuminated Receiver Collar

**The math is easy... Out of range = Out of Control.  
The In-Touch™ Two-Way Communication feature  
knows how much range you have!**

Upgrade to the SportDOG SD-1225 for an extra 300m of signal range.

### 15 LEVELS – VIBRATION – TONE ONLY – SNICK – CONTINUOUS

With the BigLeash FireFly Dog Training Collar, you have the flexibility you need for any type of dog. It features 15 total correction levels in 4 different correction modes. Train using Vibration, Tone, Nick/Momentary or Continuous. Perfect for whatever training technique you want to use!

### FIREFLY® NIGHTLIGHTS FOR NIGHT TRAINING

With 2 bars of FireFly Nightlights installed, you'll be able to train during the night and easily see where your dog is. Another essential feature for sheepdogs.

### IN-TOUCH™ TWO-WAY COMMUNICATION KNOWS YOUR RANGE

Know when your dog is nearly out of range with the BigLeash FireFly Remote Trainer. The Two-way com-link knows when you're almost out of range so you can quickly call your dog back.

### BIGLEASH REMOTE TRAINER CAN TRAIN UP TO 2 DOGS SIMULTANEOUSLY

If you need to train 2 dogs at the same time, the BigLeash Dog Training Collar is capable of making it happen for you. With the click of a button, you can switch from dog 1 to dog 2 and quickly switch back if needed. (Extra receiver collar sold separately)

### WATERPROOF RECEIVER COLLAR FOR TRAINING ON WET FIELDS

The BigLeash FireFly Receiver Collar is completely waterproof while the BigLeash Remote Transmitter is weatherproof. These features are essential when you train in the beach, in the lake or on a wet field.

### TRAIN YOUR DOG FOR UP TO 800M AWAY

The BigLeash FireFly Remote Training Collar is perfect for mid-range training for up to 800m.

### FULLY RECHARGEABLE BIGLEASH TRANSMITTER AND RECEIVER

Both BigLeash Transmitter and BigLeash FireFly Receiver are rechargeable. You won't worry about forgetting to get new batteries anymore.
