### PROGRESSIVE BARK STIMULATION ACTIVATED

When the Canicalm Anti Bark Collar detects the first bark, 6 beep sounds are emitted. And for successive barks, a 2 second beep sound is emitted with stimulations either short or long to alter the behaviour and eliminate only the nuisance barking of your dogs.

### 2 INTERCHANGEABLE PROGRESSIVE MODES

The Canicalm Anti Dog Bark Collar was designed for large and sensitive dogs with strong personality. A beeper and adjustable noise stimulations are great ways to train your stubborn dogs. The stimulations used for the Canicalm Anti Dog Bark Collar are either: Beep only or Beep only + Progressive stimulations (choose from short or long duration of noise).

### NEON LAMP TEST FEATURE

The best way to know that the Num'axes Canicalm Anti Dog Bark collar is fully functional; you must try the Neon Lamp Test first before strapping it in your pet. To guarantee that your dog will receive the best training they deserved.

### LONG LASTING LITHIUM BATTERY

Even in regular use, you will have 6 months of usage of Canicalm Anti Dog Bark Collar because of the durable Lithium Battery powered with 3V CR123A. No immediate trips to the store for new battery.

### ADJUSTABLE STRAP FOR COMFORTABLE FIT

Canicalm Anti Bark Collar has an adjustable strap design for the comfort of your dogs. It has length of 76cm and width of 25mm that is perfect fit for the neck sizes from 20cm to 67cm that secures the bark collar.

### SOUND INDICATOR – BEEPER

A continuous beeping sound will alert you to replace the battery of the Canicalm Anti Dog Bark Collar. So you will never miss it and no interruption in your training with your dog.

### WARRANTY FOR 2 YEARS WITH NUM'AXES

To keep you from worry, Num'axes is giving a 2 year warranty for the Canicalm Anti Bark Dog Collar. That is how confident the manufacturer about the product.
