AUTO SWITCH 5 PROGRESSIVE STIMULATION LEVELS

The Canicalm First Dog Bark collar gives automatic corrections for your dog's nuisance barking. At the 1st bark, a Beep sound is produced. Then within 30 seconds a 2nd bark detected, a beep sound and a low stimulation in short duration are emitted. Another 30 seconds on the 3rd bark, a beep sound in low stimulation with long duration is emitted. And for persistent dog, on its 4th bark within 30 seconds, a beep sound with strong stimulation in short duration is emitted. And for headstrong dog, on its 5th bark within 30 seconds, a beep sound with strong stimulation and in long duration will surely correct the behaviour of your pet.

AUTO-SHUTDOWN SAFETY FEATURE

The Canicalm First Dog Bark Collar is worry free because your dog is protected with this safety feature even you are away from home. The anti-bark collar will go into safety mode automatically if your dog barks 5 times really quickly and will not be given a correction 5 times. It will shut down for 2 minutes and restart itself back to normal operating mode.

MAXIMUM LITHIUM BATTERY LIFE

This Canicalm First Dog Bark Collar is powered with heavy duty 3-V CR2 Lithium Battery that will last up to 3 months before replacement.

COMFORTABLE STRAP FOR THE COLLAR

Canicalm First Dog Bark Collar strap is adjustable to fit on the neck of the dog. It has length of 64cm and width of 20mm that is comfortably fit for the neck sizes from 20cm to 67cm that secures the bark collar.

NEON LIGHT BULB TEST INDICATOR

This tool will ensure you that the Canicalm First Dog Bark collar is working perfectly, using the neon light bulb for testing purposes before strapping it in your dog.
