3 LEVELS OF CORRECTION MODES

The IKI 'YOUR VOICE' Recorder Bark Collar is perfect for your affectionate little dogs to reduce nuisance barking. You may choose from Vibrations + Warning Beep sounds, Warning Sounds + RECORDED message and Vibrations + RECORDED message that will help train your dog with a personal touch. And your dog will learn to follow your command without the use of stimulations through your voice.

BARK DETECTION ADJUSTABLE SENSORS

It detects and activates the stimulation from your dog's vocal cord vibration depending on what sensitivity level you put in the voice recorder bark collar. You may adjust it from LOW, MEDIUM to HIGH anytime when necessary in your dog's training to moderate the excessive barking.

STIMULATION MODES AND POWER ACCESS USING MAGNETIC KEY

One of the convenient features of the IKI 'Your Voice' Recorder Bark Collar that will keep you calm in case of changing the stimulation settings is the magnetic key. The magnetic key is also used to turn the power on/off.

REPLACEABLE LITHIUM BATTERY FOR MAXIMUM USE

The IKI 'Your Voice' Bark control is powered with 1.3V CR2450 Lithium Battery that can last up to 30 days of regular use before it needs replacement.

VOCAL CORD VIBRATION – YOUR DOG'S BARK ACTIVATION

Through your dog's vocal cord vibration when barking, you are confident that IKI 'Your Voice' Recorder Bark Control can correct the barking habits of your dog accurately. It will detect and activate the stimulation with your dog's barking and not the barks of other dogs.

SAFETY SHUTDOWN TO PREVENT OVER STIMULATION

We always think about the healthy training of your dogs, so the IKI 'Your Voice' Recorder Bark Collar will shut down for 15 seconds before restarting itself if the collar gets activated for 3 quick successions

LOW BATTERY AUDIO BEEP INDICATOR

A beeping sound will activate and notify you if the 1.3V CR2450 Lithium Battery needs replacement.
