6 Stimulation Levels – Automatically Increasing

The PetSafe PBC-102 Bark Control Collar features 6 total stimulation levels that will automatically increase as your dog barks.

Automatic Level Reset – Resets Back to Lowest Level

To ensure the best results, once your dog stops barking for 30 seconds, the PetSafe Bark Control Collar PBC-102 will automatically reset back to its lowest level.

Durable & Waterproof Design

Hard knocks and water damage is a thing of the past. The PetSafe Basic Bark Control Collar is completely waterproof to keep your water loving dog safe.

Special Rubber Coating to Reduce False Activation

A special rubber coating protects the Bark Control Collar from false activation and also helps protect the collar from knocks against other objects.

Vibration Sensor – Monitors your Dog's Vocal Cords

Only your dog's bark will activate the collar. A vibration sensor monitor's for vibrations that are produced when your dog barks and delivers a stimulation.

Compact & Lightweight Bark Collar

The PetSafe Bark Control Collar PBC-102 is small, compact and lightweight for your dog's comfort.

Replaceable Battery – PetSafe RFA-67 6V Lithium Battery

This uses the PetSafe RFA-67 6V Lithium Battery. It can last up to 6 months of use under normal conditions and also helps with waterproofing the bark control collar.
