CITRONELLA DISTRACTIONS – SAFE BUT ANNOYING

Safe for dogs but annoying due to the sound and smell, the PetSafe Elite Big Dog Spray Bark Collar uses Citronella spray to train your dog out of nuisance barking.

COMPLETELY WATERPROOF – FOR WATER LOVING DOGS

If your dog loves water and loves jumping around in puddles or playing under the rain, you don't have to worry about getting a new collar. The PetSafe Big Dog Elite Spray Bark Collar is completely waterproof.

PERFECT BARK TECHNOLOGY – ACCURATE BARK DETECTION

Requires dual simultaneous detection from both the sound and vibration coming from your dog's vocal cords. This feature is essential for consistency in training.

USER-REPLACEABLE BATTERY – PETS SAFE RFA-18

All you need is an extra set of batteries and you won't have to stop training. Simply pop off the old ones and replace it and continue your training.

BATTERY AND SPRAY CAPACITY LED INDICATOR

Don't leave your dog on an empty battery or spray capacity. Stay consistent with your training and check the LED indicator whether you're low on battery or citronella spray.

BEST FOR MEDIUM TO LARGE DOGS

Weighing only 135g, this bark control collar would soon feel like nothing to a big dog weighing from 18kg and up.

HEAVY DUTY COLLAR STRAP – FULLY ADJUSTABLE

Designed for the rough handling of big dogs, the included heavy duty nylon collar strap is adjustable and can fit dogs with neck sizes of up to 71cm.
