RECORD AUDIO VIA BUILT IN MICROPHONE

A perfect way to capture and discover the behaviour of your pets when you are not around is to use the Eyenimal Pet Cam. It has a built-in microphone that records the sounds of the surroundings. You may hear funny moments or conversations as they interact with other animals or find out problem areas.

VIDEO CAPTURE RESOLUTION

This Eyenimal Pet Cam is using lenses with 680 x 480 pixels resolution. You can see clearly how your pets act and discover the places they are off to wander around.

DURABLE WATER RESISTANT CAMERA

The Eyenimal Pet Cam is safe from water splashes because of its water resistance feature. Your pet and the camera is safe if they get wet from water spills or rain showers.

4GB INTERNAL MEMORY FOR LONG DURATION VIDEOS

Because each moment is very important to you and for your pet, the Eyenimal Pet Cam has a built in 4GB internal memory that stores longer videos for more memories and events.

RECHARGEABLE BATTERY THAT LASTS

The Eyenimal Pet Cam has a rechargeable battery that lasts up to 150 minutes of each video. Make sure to turn the camera off for faster charging time.

EASY DATA TRASFER AND CHARGING WITH USB CABLE

A very convenient way to transfer and charge the Eyenimal Pet Cam is by using a USB cable wire. Just plug it in your computer and will automatically transfer the video files and view it. And it also charges while connected to your computer or laptop.

A YEAR WARRANTY FROM THE MANUFACTURER

Eyenimal is dedicated to deliver only the best quality pet cam that so this product has one year warranty for factory defects.

STICKER IDENTIFICATION FOR LOST CAMERA

In case the camera is lost, sticker identification is available at the back of the Eyenimal Pet Cam. Make sure to fill up with your name and contact details for easy return.
