OUTDOOR BARK CONTROL AND LED LANTERN

The Eyenimal Ultrasonic Outdoor Anti Bark Control was designed with dual purpose. An outdoor anti bark control for your dogs and neighbour's dog's annoying bark. It is also a state of the art LED Lantern that is a great addition to your gardens, patios and porch. You may place it in a flat surface or hang it, and you will have a bark free home.

FLEXIBLE RANGE OF BARK CONTROL

One of the best features of the Ultrasonic Outdoor Anti Bark is it activates and emits an ultrasonic sound that is safe to human ears but is distracting to the sensitive ears of yours and your neighbour's dogs when they are barking within 5, 10 and 15 meters away. This is useful depending on how far your neighbour's dog is.

COLLAR FREE FOR YOUR DOGS

The Eyenimal Ultrasonic Outdoor Anti Bark Control can stop the dog from barking because of the ultrasonic sound emitted from the device. No need for collars. It has built in microphone installed in the device that detects barks of your over enthusiastic pets.

QUALITY DURABLE BATTERIES

You can already have an 8-week of optimal usage of this Sonic Outdoor Anti Bark Control by using 4 LR14 1.5V batteries that has to be purchased separately.

OUTDOOR RAIN-SHOWER PROOF

This outdoor anti-bark control lantern is designed to withstand rain showers. So you have the confidence that you will have the Eyenimal Ultrasonic LED Lantern for a longer period of time in your gardens or porch.

LED LIGHTING FUNCIONALITIES

You can adjust the level of the light anytime you want. It would either be in low intensity or high intensity so it is a battery saving lantern. The LED can also be used as a low battery level indicator.

WARRANTY FOR 2 YEARS FROM EYENIMAL

To satisfy you, the manufacturer has given a 2 year warranty for Eyenimal Ultrasonic Outdoor Anti Bank Control and Lantern.
