#### CAN HOLD UP TO 4 LITRES OF DRINKING WATER

The Drinkwell 360 Stainless Steel Pet Fountain is able to hold up to 4 litres of water for multiple dogs. This is enough to leave them unattended for a few hours.

#### DESIGNED AND MANUFACTURED WITH FOOD GRADE STAINLESS STEEL

Never give your dog dirty water from dirty bowls. The 360 Stainless Steel Pet Fountain from Drinkwell uses the best hygienic stainless steel for its bowl so your dog stays healthy and keeps drinking clean water.

#### INCLUDES 5 INTERCHANGEABLE SPOUT RINGS

The box comes with 5 interchangeable spout rings. Each ring has a different number of spouts on it so you can select which spout is perfect depending on the number of dogs you have. The spout rings have up to 5 spouts in them.

#### FEATURES A REPLACEABLE CHARCOAL WATER FILTER

Your dog's drinking water passes through the charcoal water filter constantly. This offers fresh and clean water every time without the odours and tastes that would normally turn off a dog from drinking water.

#### USES A FULLY SUBMERSIBLE WATER PUMP FOR QUIET OPERATION

The water pump that drives the water through the charcoal water filter and the spout is completely submersible for silent operation.

#### 1 YEAR MANUFACTURER'S WARRANTY

The Drinkwell 360 Stainless Steel Pet Fountain is covered by a 1 Year Manufacturer's Warranty.
